## ACADEMIC PROJECT

- ✚ ABC Car portal
  - Design and implement a website for a used car sales portal using Spring MVC Framework and MySQL Server.
  - Purpose of this website is to meet sellers who want to buy and sell the car.
- ✚ ABC Job portal
  - The project is to design a community portal using Struct2 Framework similar to LinkedIn.com.
  - Users will be able to register in the portal using Register page.
  - Users of the portal can search for others users using various parameters such as First Name, Last Name, Company Name, City and country. Users will be able to view the public profile of users after searching them.
  - The portal allows users to login, request for forgotten password and update their profile information.

## SUMMARY

Highly-motivated and enthusiastic college student who is ready to start a career within your organization.

## DATE OF BIRTH

February 5, 2002
